

Eco Drift car wash will clean, shine and protect your car in the most convenient and environment friendly way.

Why environment friendly?

- Eco Drift uses 100 % biodegradable, eco friendly and petroleum free valeting products.
- Eco drift will clean, shine and protect your car using no more than 7 oz of water.
- By using our valeting service, you are cutting down the waste of water and energy and reduce the carbon emissions.
- Each Eco Drift car wash saves about 700 glasses of water, which could quench the thirst of 700 kids in UK or elsewhere in the world.

Why convenient?

- Eco Drift car washes are situated in key locations around the country /big shops, entertainment centers, business parks and etc/ so you could have your car cleaned, while you are shopping, working or entertaining yourself. We are also offering mobile car valeting service for the Portsmouth area, fleet car wash service for companies, organizations and Councils and a showroom car wash service for the motor trade.

- The quality of the products and the service of the Eco Drift will provide a clean and shiny look of your vehicle, for a longer period of time.
- The longer lasting shining effect and the additional added protection, makes our services extremely cost effective - your car will need less frequent cleaning.
